

## Notice to Bands Playing at 7C's Winery

Live Music is very important to us at 7C's Winery. As you may know as may know as a venue we are required to pay a license fee to ASCAP, SESAC and BMI to cover copyrights for the music you play.

Our research has determined that virtually all the music played here has been a part of the BMI repertory. In order to save on the escalating costs we will NOT be licensing the ASCAP and SESAC repertories.

Therefore as a condition of playing here at 7C's Winery you agree NOT to play anything listed in the ASCAP or SESAC repertories here at the winery. This gives you the entire BMI repertory and any original production of your own. This restriction ONLY applies to performances here at 7C's Winery.

If you have any questions as to which Repertory an item is in please let us know, we will assist you in determine it. We have copies of the repertories here at the winery and links to the online database for all three organizations are listed below.

We are looking forward to a great season for 2015.
